PROJECT PROFILE

FM Global

PROJECT

FM Global
743 Reynolds Road
West Glocester, RI

ARCHITECT

FM Global
743 Reynolds Road
West Glocester, RI

DETAILS

K-13 Tan
50,000 Square Feet
2.76" Thickness

When FM Global wanted to insulate their old burn test facility building most insulation manufacturers ran the other way, not K-13. A mock-up was applied to the soot ridden exterior walls and allowed to cure for 3 weeks. The material was then tested for bond strength and passed with flying colors. Four weeks, and 50,000 square feet later, FM Global now has a "Class 1" thermal material insulating all exterior walls. The insulating of this once cold metal building shell will now allow reclaiming for future business uses. For more information regarding K-13 call 508-678-1118 or visit our web site @ www.atiincorporated.com.
