### ARCHITECT

Tsoi/Kobus & Associates  
One Brattle Square  
Cambridge, MA

### DETAILS

K-13 Light Grey  
57,000 Square Feet  
2.7" Thickness

Not one, not two, not three, but four buildings? K-13 has been utilized in every new Fan Pier building. The complex, which has created its own community, was a parking lot not that long ago. The K-13, with its unrivaled bond strength and Class 1 Classification, made it the perfect choice for long term, care free performance for the building owners and operators. While there are other spray materials that are always offered, the durability and performance of K-13 always wins out. For more information regarding K-13 call 508-678-1118 or visit our web site @ [www.atiincorporated.com](http://www.atiincorporated.com).
