PROJECT PROFILE

Fitchburg State College Hammond Hall

PROJECT

Fitchburg State College
Hammond Hall
Fitchburg, MA

ARCHITECT

DiMella Shaffer
281 Summer Street
Boston, MA

DETAILS

K-13 Black
3,600 Square Feet
.5" Thickness

Nothing can escalate quicker than noise in a college dining facility. The higher the capacity, the greater the decibel level will increase. Black K-13 not only gives the illusion of expanse, but more importantly provides a Noise Reduction Coefficient of 1.05 on the fluted metal deck. An aesthetic coating has been added to the beams to conceal the unattractive fireproofing and provide a cohesive appearance. For more information regarding K-13 call 508-678-1118 or visit our web site @ www.atiincorporated.com.
