# PROJECT PROFILE

## Greentown Labs

### PROJECT

Greentown Labs  
28 Dane Street  
Somerville, MA

### ARCHITECT

Silverman Trykowski Assoc  
21 Drydock Avenue  
Boston, MA

### DETAILS

K-13 White  
19,000 Square Feet  
1.5" Thickness

No drop ceiling tiles in these specifications. The new Greentown Labs owners wanted an open feel with exposed mechanicals and structural elements. Although a very popular design request, Silverman Trykowski Associates knew there would still be the need for acoustical control. K-13 applied directly to the fluted metal deck allowed full view of all construction components without any sacrifice on performance. 1.5" of white K-13 provides a Noise Reduction Coefficient of 1.05. For more information regarding K-13 call 508-678-1118 or visit our web site @ [www.atiincorporated.com](http://www.atiincorporated.com).
