# PROJECT PROFILE

## Hynes Convention Center

### PROJECT

Hynes Convention Center  
900 Boylston Street  
Boston, MA

### ARCHITECT

Simpson Gumpertz Heger  
41 Seyon Street  
Waltham, MA

### DETAILS

SonaSpray "fc" White  
35,000 Square Feet  
1" Thickness

**The perfect fit! Without any aesthetic alterations, this application of SonaSpray "fc" has dealt with a problem that has been present for years. The latest renovations to the Hynes Convention Center not only included sound system improvements but acoustical enhancements as well. Applied at 1", the SonaSpray quietly and without any alterations architecturally removed unwanted areas of reverberation and echo in two convention center areas. For more information regarding SonaSpray "fc" call 508-678-1118 or visit our web site @ [www.atiincorporated.com](http://www.atiincorporated.com).**
