# PROJECT PROFILE

Lesley University  
Lunder Arts Center

## PROJECT

Lesley University  
1801 Massachusetts Ave.  
Cambridge, MA

## ARCHITECT

Bruner/Cott & Assoc.  
130 Prospect Street  
Cambridge, MA

## DETAILS

SonaSpray "fc" White  
5,000 Square Feet  
1" Thickness

Whispering will help, but this cathedral ceiling study space required an acoustical treatment that would provide high performance without distracting from the old timber frame. Renovated from an old historic church, termination strips were installed against all the wood trusses to provide a clean line along the rough cut wood. The results create a seamless blend of modern acoustical control within the old architecture. For more information regarding SonaSpray "fc" call 508-678-1118 or visit our web site @ [www.atiincorporated.com](http://www.atiincorporated.com).
