

PROJECT PROFILE

Pelham High School

PROJECT

Pelham High School
59A Marsh Road
Pelham, NH

ARCHITECT

Lavallee Brensinger Arch
155 Dow St, Ste 400
Manchester, NH

DETAILS

K-13 Tan
10,000 Square Feet
1.5" Thickness

Lavallee Brensinger Architects were so impressed by the White K-13 in the new gymnasium that they utilized Tan K-13 in strategic locations to absorb unwanted reverberation in the seating areas of the new theater. With the stage left untreated, performers are able to project clean clear sound for all attending to hear once and only once. The 1.5" of Tan K-13 provides a Noise Reduction Coefficient of 1.05 on the fluted metal deck substrate. For more information regarding K-13 call 508-678-1118 or visit our web site @ www.atiincorporated.com.
