Oudens Ello Architecture
46 Waltham St., Ste 210
Boston, MA

DETAILS

SonaSpray "fc" Arctic White
10,000 Square Feet
.75" Thickness

There is no better place for an application of SonaSpray "fc" than a quiet place of learning like the Scituate Public Library. Applied at .75", this wide open library now has complete acoustical control. The product was applied to the flat surfaces only, leaving the beams exposed to provide a clean sharp appearance. The choice of Arctic White also provided a GE Light Reflectivity of .85. For more information regarding SonaSpray "fc" call 508-678-1118 or visit our web site @ www.atiincorporated.com.
