

# PROJECT PROFILE

## Springfield Museum

### PROJECT

Springfield Museum  
85 Chestnut Street  
Springfield, MA

### ARCHITECT

Stephen Jablonski Arch  
27 Elliot Street  
Springfield, MA

### DETAILS

SonaSpray "fc" Special Color  
3,600 Square Feet  
.5" Thickness

While you meander through the recently completed Phase II at the Springfield Museum, something you will not hear is echo, reverberation, or other patrons' conversation. Once again Stephen Jablonski Architects has taped SonaSpray "fc", custom color, to maintain the reflective and eclectic mood in the museum. Applied at 1/2", Noise Reduction Coefficient of .65, the product is able to provide superior sound control without distracting from the exhibits. For more information regarding SonaSpray "fc" call 508-678-1118 or visit our web site @ [www.atiincorporated.com](http://www.atiincorporated.com).
