### DETAILS

SonaSpray "fc" Arctic White  
25,000 Square Feet  
1" Thickness

There is nothing more dark and dreary than grey concrete T's. In place and acoustically painful for over 15 years, Suffield Academy backboned this recent renovation centered around the application of SonaSpray "fc" to lighten and eliminate reverberation. This unbelievable transformation can truly only be appreciated by the faculty and students who have been utilizing the space for years. The SonaSpray "fc" was applied at 1" in Arctic White with an N.R.C. rating of .90. For more information regarding SonaSpray "fc" call 508-678-1118 or visit our web site @ [www.atiincorporated.com](http://www.atiincorporated.com).
