PROJECT PROFILE

Windham High School

PROJECT

Windham High School
355 High Street
Willimantic, CT

ARCHITECT

Windham Public Schools
Engineering Department
Willimantic, CT

DETAILS

K-13 White
11,700 Square Feet
1" Thickness

With a roof replacement well underway, it was days before school officials noticed the roof screws had penetrated the concrete roof deck causing hundreds of spalled areas. With the opening of school days away, K-13 was utilized to conceal the riddled ceiling, but the school faculty never realized the hidden benefit in this solution. With over 11,000 square feet of surface area, the reverberation in the natatorium has been reduced by over 5 seconds. This application was completed in 7 days start to finish. For more information regarding K-13 call 508-678-1118 or visit our web site @ www.atiincorporated.com.
