

# PROJECT PROFILE

## Winthrop Middle/High School

### PROJECT

Winthrop Middle/High School  
400 Main Street  
Winthrop, MA

### ARCHITECT

HMFH Architects Inc.  
130 Bishop Allen Drive  
Cambridge, MA

### DETAILS

SonaKrete White  
6,100 Square Feet  
1" Thickness

Attention to detail is evident in this application of SonaSpray "fc" on the ceiling and SonaKrete on the walls of the two large light wells at the Winthrop Middle/High School in Winthrop Massachusetts. Adding to the complexity of the application and troweling of the material was the fact that the light wells are larger at the top than the opening, making access difficult. The end result of this high performance acoustical application speaks for itself. For more information regarding SonaKrete or SonaSpray "fc" call 508-678-1118 or visit our web site @ [www.atiincorporated.com](http://www.atiincorporated.com).
