

PROJECT PROFILE

Christian Life Assembly of God Church

PROJECT

Christian Life Church
143 Windham Road
Willimantic, CT

OWNER

Christian Life Church
143 Windham Road
Willimantic, CT

DETAILS

SonaSpray "fc" White
9,000 Square Feet
.5" Thickness

Nothing is more difficult than to control reverberation in a geodesic dome. This application of SonaSpray "fc" is not the first, however, for the Christian Life Assembly of God Church. The original application, which was completed in 1994, was destroyed by a storm which damaged the roof and structural members. The owners demanded that SonaSpray "fc" become part of the rebuild. The 9,000 square foot application provides the church with an NRC of .75 creating just the right amount of acoustical control. For more information regarding SonaSpray "fc" call 508-678-1118 or visit our web site @ www.atiincorporated.com.
