

### PROJECT

Fan Pier  
One Marina Park Drive  
Boston, MA

### ARCHITECT

Elkus Manfredi  
300 A Street  
Boston, MA

### DETAILS

K-13 Light Grey  
37,800 Square Feet  
4.04" Thickness

Flame Spread of 5, Smoke Development of 5, Class "A" Noncombustible K-13 gets tapped for the below grade garage at the new Fan Pier Development. With the rapid rise of expandable foam products, which carry Smoke Development figures of over 450 and concerns of Flame Spread, K-13 stands alone. Providing matching R-values, along with higher durability and superior aesthetics, K-13 does not require expensive and unproven fire delay coatings. For more information regarding K-13 call 508-678-1118 or visit our web site @ [www.atiincorporated.com](http://www.atiincorporated.com).
