SRA Residents: Our second “Refresher Course” of our Rules and Regulations will be on our website under Documents, under Rules and Regulations. This one is about our ever popular problem of “Pet Poop” and “Leash Law”. A copy will be included with your March Meeting Minutes. Our first “Refresher Course” was put into the Deer Tales last month. However, this “Refresher Course” is too long to completely be published here. Please refer to our website: www.saddleridgeassociationltd.com

Welcome back to our residents who were lucky to have missed our winter weather. With the temps rising, golf carts, bikers and walkers will be out on the roads. PLEASE watch your speed. It is 20 miles per hour throughout all of Saddle Ridge.

There is a “YIELD” sign when exiting from the West side of Saddle Ridge, going out to Hwy. 33 or entering SR East.

Yield means let other road users go first. A yield sign assigns the right-of-way to traffic in certain intersections. If you see a yield sign ahead, be prepared to let other drivers crossing your road take the right-of-way. And don’t forget about bicycles, pedestrians and golf carts!

This signage was recommended by the DOT. If an accident should happen and you did not yield you are held responsible.

Garbage pick up days remain Wednesdays all month. No changes due to Easter Sunday.
**Spring Clean Up**

I can hardly wait to open my windows and air out my house. How about you? One item that was brought to my attention is the cleaning of my dryer vent. You would be surprised how much lint can collect over time. **Lint builds up in the lint trap but also inside the dryer vent and ductwork, reducing air flow and drying efficiency. Lint can cause humidity levels to rise around vents causing mildew and mold to develop in walls and insulation. But most important: Lint is combustible. Lint causes fires**

If you would like someone to clean your vent I have the name of a company that you can contact. You can purchase a dryer vent cleaning kit from any hardware store, Walmart or Amazon.

Spring is also a good time to change the batteries in your smoke detector or check the date on your detectors.

Nick from HydroClean will be in our area early May. He will leave an information flyer in your newspaper boxes for window washing and/or unit washing.

**Earth Day Monday April 22**

Weather permitting we will be cleaning up the front entrance. Planting flowers, painting the Guard House and painting the walls. If you would like to help please contact: Ruth Larson 608-697-4784 or Mari Guckenberger 507-202-8459

**Easter Fun Facts**

The tallest chocolate Easter Egg was made in Italy in 2011. It stood 34 ft and weighted in at 15,873.28 lb.

The art of painted eggs is called pysanka which originated in Ukraine. It involved using wax and dyes to color the eggs.

The exchange of giving an Easter egg dates back to before Easter. The giving of eggs is considered a symbol of rebirth in many cultures.

Americans consume 16 million jelly beans during this season. That’s enough to circle the globe not 1, not 2 but 3 times

Happy Easter
