Aluminum can recycle update

The boys made another recycle run July 24, 2024 as the collection area was overflowing with bags. Thank you for your past and continued support. Thank you Dick Roe, Steve Letourneaux and Mark Waitkus for doing this job. The balance of the fixed CD is \$12,653.96. We added \$179.30 bringing the Money Market balance to \$865.54.

Window drapes and banners have been added to help reduce noise levels at the The Clubhouse. Thank you Margie Druce for leading that project with Bob & Tricia Kuhn's approval. We will reimburse Margie, \$729.83 cost of drapes and hardware to install.

Our next aluminum can run will be early October. PLEASE PLEASE do not mix garbage in with empty aluminum cans. It makes a lot of extra dirty work for the guys. Claire & Steve Letourneaux

Sewer Announcement

PLEASE!!!! WE ARE ASKING AGAIN -

TOILET PAPER IS THE ONLY THING TO FLUSH DOWN TOILETS!!

We had a recent situation caused by various inappropriate materials (wipes for any purpose, women's hygiene items, mop heads, diaper type products, etc.) being flushed down the toilets that clogged up the pumps and the check valves at the lift station that transfers the waste to the Portage sewage facility. This created material flow and metering problems which we are required to report to Portage Utilities for billing. The subsequent repairs and excess fees from the City of Portage have cost all of us approximately \$20,000. It is bad enough that the City just increased sewage fees by 25% and will continue to raise the rate over the next 4-5 years, but when we have people flushing things down the system that cause this type of issue...we all pay for this irresponsible behavior.

REPEAT: THE ONLY MATERIAL THAT SHOULD BE FLUSHED DOWN THE TOILET IS TOILET PAPER!!!
THANK YOU!!
