

Fairfield Regional Fire School

Heart Saver CPR for the Lay Person

OPEN ENROLLMENT

Heart Saver Initial CPR Training for the Lay Person

Heart saver courses are designed for anyone with little or no medical training who needs a course completion for job requirements or for anyone that just wants to be prepared in the event of an emergency. This class combines classroom and practical skill training for adult, child and infant CPR and choking.

**The AHA does not mandate a minimum age requirement for learning CPR. The ability to perform CPR is based more on body strength than age. Studies have shown that children as young as nine years old can learn and retain CPR skills.*
