What's New In the Chiropractic World

Starting in January of 2019 two major laws will be enacted to prohibit health care insurance carriers from requiring prior authorization for: Initial evaluations and management visits: up to six consecutive treatment visits. This will not only be in effect for Chiropractic care but will also include physical therapy, occupational therapy, east Asian medicine, massage therapy, and speech and hearing therapies that meet the standards of medical necessity and are subject to quantitative treatment limits of the health plan. The second law will state that “health insurance carriers must not pay a chiropractor less than another type of provider for the same or substantially similar physical medicine and rehabilitation code, evaluation and management code, or spinal manipulation code.”

What's New With Family Chiropractic Clinic

New Year, New Documentation: As of the new year we are updating documentation for all of our patients to ensure we have the most up to date health information possible! We will be implementing new patient information packets, starting new evaluations, and scanning insurance cards and photo ID's to ensure compliance with State and Federal regulations.

Deductibles: Most deductibles will start over on Jan 1.

Significant reorganization: We have done some reorganization to our team, which includes a stronger leadership team along with adding new team members. As of March 2018 we added a massage therapist to the team and by mid- 2019 we will be adding another to our growing group! We have also added a naturopath and are hoping to add another chiropractor to our team in the 2019 year.

Moving: Our team is looking to expand! With the growth that we have seen in our patient volume and team size we are now looking into larger spaces for our Spine and Wellness Center! We will let everyone know when the time comes!

New Website:

We have started a new website for Family Chiropractic Clinic! With all the changes coming we are using the website to keep everyone updated and in the loop!
