

October Curriculum

My Emotions

Little learners have big feelings! It's harder to handle our big emotions when we don't have words for them. Excited, nervous, angry, even furious, all emotions are important! This month we'll learn to name our emotions and what to do with them when they feel too big for our bodies. Techniques for calming down, how to share our excitement without bragging, and how to politely ask for space when it's needed.

Unit Vocabulary:

Toddlers: Happy, Sad, Scared, Tired, Mad

Preschool: Excited, Upset, Nervous, Exhausted, Annoyed

Bible Story - Daniel & The Lions Den

Sometimes things can be scary, and it can be extra scary to do the right thing when all of your friends want to break the rules. Luckily God is there for us all the time, even in the Lion's Den. As we learn the story of Daniel we learn about how God helps us conquer our fears!

American Sign Language (ASL) and Spanish Vocabulary

Scared, Brave, Breathe

*¡Hola!
¿Quieres

Cultural Celebration

With ancient and modern traditions that focus on family, friends, fun and fairies this month we're exploring Ireland! From dramatic cliff sides, to shepherds pastures, potatoes to pixies, we'll cover the entire island, including the festival of Samhain, which is where many of our Halloween traditions come from!
