

# TRC RELEASE

TRC Release is an environmentally sound product specially designed for the asphalt industry. This product was specially engineered to keep asphalt from sticking to truck boxes and rubber tire rollers.

**Product Code #108871**

**TRC Release will eliminate the following:**

1. Asphalt buildup in truck boxes
2. Asphalt sticking to roller tires
3. Tire deterioration on rollers. (Like Diesel Fuel)
4. Asphalt buildup on tail gates
5. Unnecessary asphalt being hauled in truck boxes
6. The use of diesel fuel that is harmful to asphalt.

**Features of TRC Release are:**

1. Safe to use on all equipment (Asphalt Spreaders, Rollers, Asphalt Buggies)
2. Dilutes with water
3. Very affordable
4. Can be used through all makes of dispensers
5. Will not separate when diluted
6. White indicator in product to make it easy to see when applied
7. Cheaper to use than diesel
8. Works on all types of asphalt and tar

**Product Code #108885**

**Also Available In Cold Weather Formula: TRC Release Extreme:**

1. Same great attributes found in TRC Release.
2. Cold weather tolerant to -26°C (-15°F)
