

Mike Murphy & Sons Oil

Your Money

Prebuy is Available Now!

With this program you Pre-buy Oil at a set price for the heating season October 1, 2020 through March 31, 2021. With this option you avoid the volatility of the winter market price. Call 603-362-4879 today to check pricing and reserve your gallons.

Your Home

Protect Your Assets

One of the simplest ways to extend the life and improve efficiency of your heating equipment is to have it regularly maintained. When is the last time you had Annual Preventative Maintenance done?

Your Family

Winter is Coming...

Keep the home fire burning and the water hot. The best time to upgrade your heating system is before you have no choice. Plan ahead, don't wait for an emergency. Call us for a free estimate.

FUEL CONSUMPTION

Did the children leave the nest? Did a parent move in with you? Changes at home can change your rate of fuel consumption. New construction or replacing windows may alter how often you need a delivery. Please let us know of any changes if you are on Auto Delivery and check your tank often if you are a Will Call customer.

You can check your account balance,
order oil, go paperless & pay your bills
online.

Join our Budget Plan today and enjoy the security of knowing what your oil cost will be every month. Relax knowing you have automatic delivery and options for the automatic payment plan. Call 603-362-4879 to find out what your monthly payment would be!

The past few months have presented new challenges for us all. I want to thank the employees of Mike Murphy & Sons Oil. We take the duty of providing our customers with heat and hot water seriously, that's why as essential employees, we never missed a beat. I want to thank all our customers who accepted our requests to leave basement doors, or bulkheads open and providing 6 feet of separation to our workers. When this could not be met, appropriate PPE was worn. This policy will continue for the foreseeable future.

With many people working from home this winter, and school aged children learning from home, we will take the responsibility of keeping your home's heat on and running efficiently. The best way to help us achieve this is to schedule an Annual Preventative Maintenance. This provides our certified techs the opportunity to change filters, nozzles and to correct minor issues before they become major problems. I thank our loyal customers for their years of service and look forward to keeping your family safe and warm this upcoming season.

~Mike Murphy, Owner
