Victory — High John the Conqueror & Angelica Root

The Working of Success, Protection & Forward Momentum

Old Spirits Wild Roots

Victory is an anointing oil created for those facing challenges, pursuing important goals, or stepping into a new season of personal power.

This blend unites two of the most respected roots in folk tradition. High John the Conqueror Root has long been associated with determination, personal authority, resilience, and overcoming adversity. Angelica Root has traditionally been connected with protection, blessing, guidance, and spiritual support.

Together they create an oil centered on successful movement through obstacles — not through force alone, but through persistence, wisdom, and favor.

Victory is crafted for moments when courage is required, when confidence must be reclaimed, and when the road ahead demands both strength and protection.

Its energy feels like standing at dawn after a long struggle and seeing the path finally open before you.

Victory reminds us:

The obstacle is not the end of the story.
