

Do you want to explore how animals spend their winter?

Gather Blankets, pillows, cushions and anything else soft and cozy! Now use these materials to build a **Den** (Blanket Fort). Fill it with soft warm bedding (more blankets) and crawl inside for a long Winter Sleep! Or build multiple small dens for your toy animals to hibernate in!

We would love to see your **Dens**! You can share them with us by posting a photo on our WildBoreal Environmental Educators Facebook Group!

And Have a tonne of Fun!!!
