

VALOE ISSUES A CONVERTIBLE BOND AND STARTS PREPARING A SHARE ISSUE

In order to strengthen Valoe's capital structure the company issues Convertible Bond of EUR 5,000,000 at the most. Loan shares of the Convertible Bond can be converted to max. 500,000,000 new shares of the company. Subscription price is EUR 0.01 per share.

The convertible bond is issued in deviation from the shareholders' pre-emptive subscription rights to the shareholders approved by the Board of Directors. Convertible bond can also be subscribed against a loan receivable of min. EUR 100,000 from Valoe, undisputed during the subscription period, by converting the loan's capital and/or interest into convertible bond pursuant to the terms of the convertible bond.

The minimum amount of subscription and one loan share shall be EUR 100,000.

The loan period shall commence on the payment date and expire on 1 August 2018 on which date the convertible bond shall expire to be repayable in its entirety in accordance with the terms of the loan.

The shareholders' pre-emptive subscription rights are deviated from as the stock options are issued to secure financing required to strengthen the capital structure of the company cost effectively and considering the size of the financing. Thus, there is from the company's point of view a weighty financial reason to issue the stock options.

As of the date of withdrawal an annual interest of eight (8) percent shall be paid to the capital of the Convertible Bond. The interest shall be added to the loan capital annually on 30 July. The interest shall be paid in shares at the end of the loan period.

A promissory note holder shall be entitled to participate in potential future share issues arranged by the Company in which the subscription period shall terminate at the latest on 1 August 2018 by subscribing the shares at the subscription price that is 20 per cent lower compared to the subscription price offered in the respective share issues.

One loan share of EUR 100,000 entitles the promissory note holder to subscribe for 10,000,000 new share of the company. Based on the subscriptions made pursuant to the loan shares the company shall issue a maximum amount of 500,000,000 new company shares. The company has one (1) class of shares.

The terms of the convertible bond are, without the technical appendices, attached to this release as Attachment 1.

Valoe also starts preparing a share issue. The objective of the share issue is to collect capital to execute the Clean Energy business plan of the company. The share issue is expected to be carried out by the end of this year. The company will disclose a separate release on the terms and schedule of the share issue.

Realization of the convertible bond and a share issue involves risks. It is not certain if the company succeeds in collecting EUR 5 million with the convertible bond to strengthen its capital structure or capital with a share issue to finance the execution of its Clean Energy business plan.
