

# AVI50222 Diploma of Aviation (Commercial Pilot Licence – Aeroplane)

## Course Overview

This qualification reflects the roles of flight crew personnel performing normal and emergency commercial pilot duties in support of commercial or Defence aviation flight operations.

Flight crew duties include applying technical and non-technical aviation skills and knowledge to a wide range of air transport operations, including passenger, charter and cargo operations.

Individuals working at this level will apply knowledge and skills to demonstrate autonomy, judgement and defined responsibility in known or changing contexts and within broad but established parameters.

This qualification forms some of the requirements for certification as a commercial pilot by the Civil Aviation Safety Authority (CASA) as directed by Civil Aviation Safety Regulation (CASR) Part 61 Flight crew licensing.

People seeking certification should check these requirements with CASA.

## Course Content

This course is full-time, delivered over 50 weeks, comprising of 29 units of competency and 150 hours of practical flight training.

Students are expected to undertake additional personal study to complete the course requirements.

- **28 core units.**
- **1 general elective unit** from the general elective units. The general elective unit must contribute to the vocational outcomes of the qualification.

## Delivery & Assessment

The course runs five (5) days a week.

Flying days are scheduled on a regular basis allowing for weather etc. A typical flying day consists of a pre-flight briefing, flight and a post-flight debrief.

## Course Outcomes

On successful completion of all course requirements and assessments, learners will be issued with a

AVI50222 Diploma of Aviation (Commercial Pilot Licence – Aeroplane)
