

 CANTERBURY F ASSOCIATION

WINDOW & SCREEN MAINTENANCE REMINDER

Dear Residents,

As part of our ongoing beautification efforts, we kindly remind all residents that it is your responsibility to maintain their windows and screens.

Please take a moment to ensure the following:

Clean between the window and screen regularly

Remove bugs, dirt, and debris from window areas

Do not store or leave items such as wood, decorations, or materials on the inside of the unit up against the window, as this makes the appearance unattractive

Keep windows looking clean and clear from the outside

Recently, we have noticed some units with debris and items visible in the windows, which affects the overall appearance of our community.

Please note: our management company services the property three times per week, including cleaning the walkways and laundry room. As part of their contract, they also sweep and dust exterior areas, including around windows and door frames. However, cleaning between the window and screen and inside the window area remains the responsibility of each unit owner.

Keeping windows clean and well-maintained helps improve the overall appearance of our buildings and keeps Canterbury F a place we are all proud to call home.

This is a friendly reminder, and we appreciate everyone's cooperation.

Thank you.

Canterbury F
