About Idée

Idée means Idea! Idee was founded in 2015 by IITans and has a presence in India (ID4 Consultancy) and in the US (Idée Consultancy).

In today's world, Institutes need to rapidly digitalize themselves to be more responsive to changing customer needs, and business and technical landscape. Idée is well positioned to be a partner and co-innovator to Institutes in their digital transformation journey.

Digital Student Management System (dSMS)

As a school or learning institute, you would have faced multiple problems. Have you

- ever wondered how much time and money it needs to run day to day activities of your institute?
- ever wondered how much time and energy it takes to keep records of your institutions?
- felt the frustration of your faculty spending a large amount of time on creating and keeping mandatory records instead of focusing on teaching activities?
- noticed how hard it is to get a current snapshot of the status of fee deposit (or any other data)?
- struggled to compile operational data from and notice how much time it takes?
- ever wondered what happens if you lose all your school records in fire or a computer crash?

All these and many other questions, issues, and pain points are common in day to day management of the institute. **dSMS** aims at alleviating all these pain points and provide a competitive advantage to your institute by making management efficient, reliable, and confusion-free.

The highly flexible modular design provides us the capability to create a dSMS package for everyone including Schools, Colleges, Coaching Institutes, free-lance teachers, tutors, or sports/dance classes.

dSMS Mission

"Our mission is to provide easy to use, secure, and comprehensive Student Management System at the lowest price."

Our mission sums it all – what we want to do and what we want to be.

Advantages of dSMS

dSMS will help your institute to innovate, transform, and lead. **dSMS** will empower you to manage your institute efficiently and make effective decisions. You will have all the information at your fingertips whenever you needed. Let's dive into some of the most impactful advantages you will have.

Digital Management – No Registers

dSMS will transform all your record keeping and processes to digital, eliminating the need to maintain multiple registers, files, and spreadsheet.

Quick and Easy – No manual activities

dSMS will empower your staff with quick and easy workflows. It will not only remove manual activities and paperwork but also empower you to get the status of everything in few clicks.

No Spreadsheets

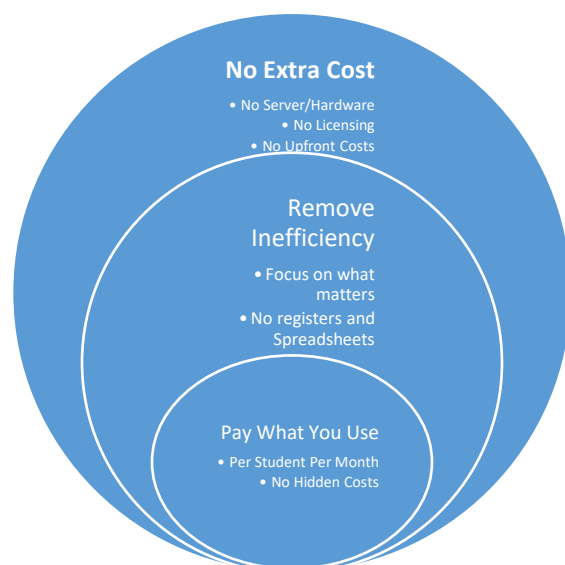

Spreadsheets are quick, but they create a data maze and quickly become a perennial source of confusion and delay. **dSMS** provides you 360-degree view of your school and makes everyone to look at the single source of truth.

No Servers and IT hardware

It's a nightmare to install on-premises solution. It has huge upfront cost, costly maintenance, and nagging issues. **dSMS** is completely cloud-based – no hassles, just log in and work. Do what matters the most to you.

Pay For What You Use

dSMS is SaaS solution – you just need to pay what you use. No locked in cost, no annual maintenance fee, no licensing fee. Pay per month based on a number of active students. **dSMS** automatically scales up and scales down based on a number of students. You need not pay a dime for what you don't use.

Pay As You Go

Need not to pay upfront for the complete year. Just pay every month based on a number of active students. No commitments and no termination costs!

Managed and Secured Access

You have full control over who has access to what data and functionality. **dSMS** has role-based access and you can manage the roles from Admin profile.

Work anytime, any device, any browser

Work anytime from any device of your choice (Laptop, PC, Tablet, Mobile) using any browser of your choice. No boundaries and always open for business. You can keep an eye on what's happening even when you are out of town for a conference or meeting.

Data at your fingertips

dSMS brings data at your fingertips. Our Analytics Engine creates most useful reports and dashboards for you to quickly check the status. You can make quick and proactive decisions just by looking at the reports and dashboard.

Proactive Management

Don't wait until something happens. Prevent events and involve stakeholders in the conversation early.

For example.

- Send alert to parents who have not paid yet before the fee due date so that they don't miss.
- Send alert to a student who did not show up without parents informing the school.
- Send alert to parents if the student has low attendance before student fails to complete required attendance.
- And many more...

Fast, Reliable, and Secure

dSMS is the most advanced architecture which provides us unique capabilities. It's lightning fast, always reliable, and always secure. We have taken the extra case so that your data in transit and data at rest is secure all the times.

Always Evolving

We are constantly working to upgrade **dSMS**. Roadmap of next two quarters' deliverables is always available on the training portal. We will continually update to add new functionality and upgrade the system under the hood to use the latest technology.

Training, Job Aid, and Private Channel

We have a private video channel with a great repository of Job Aids and How-to Videos. We have a training program, which trains individuals in using and administering **dSMS** so that you always have dependable using dSMS and delivering results.

Features of dSMS

dSMS is a feature-rich, intuitive, and easy to use application. dSMS features are aligned with the day to day activities your staff does and allows them to finish these activities on time, efficiently, and easily.

Institute Admin Modules

Institute Admin role of dSMS will have these modules to manage school activities and tasks. He will be able to create additional admin users to help him with various tasks.

Admin Dashboard (Powered by Analytics Engine)

dSMS has powerful Admin Dashboard view powered by the Analytics Engine. This provides you a quick snapshot of most important statistics of your school, such as student and faculty attendance, fee collection statistics, and academic statistics.
