

CAPBs® sens AT10

Anode tester

Description

Sensor unit for testing isolated built-in sacrificial anodes on hot water tanks.

Application

- Measuring insulated anodes
- Checking and evaluating the current anode consumption status

Technical specifications

Dimensions HxWxD	58 x 42 x 35 mm
Measuring range	0 - 6 mA
Resolution	0.01 mA
Part no.	M090 28 39 10
