SERVICE QUOTE

Beekeeping services include: swarm removal, hive removal, hive relocation, hive set-up, and mentorship.

We Cannot guarantee the removal will be successful. Bees are independent beings and make their own decisions, so sometimes they do not stay where we put them. Please keep this in mind.

One-time Hive Set-up	\$100

Mentorship

If you feel you need help in the first couple of months of being a new beekeeper, I can help you set up your new hive, learn how to inspect your hive, help you troubleshoot any issues, teach you how to use your smoker and other bee equipment, teach you how and when to harvest honey, and any other bee-related questions you may have.

You may choose a monthly visit with me for anywhere from 1-6 months during the primary bee season (February-October). Contact me for more information.
