

“eBC Aren Davis”, an international consortium of industry professionals, is thrilled to announce the launch of their new consultancy services.

HACKNEY, LONDON, UNITED KINGDOM, March 4, 2024

“eBC Aren Davis”, an international consortium of industry professionals, is thrilled to announce the launch of their new consultancy services. With a global reach and a team of experts, they specialise in using Analytics within their delivery of independent Project Management and M365 Collaboration. Providing a full spectrum of troubleshooting solutions across multiple industries.

The team, composed of professionals from the USA and UK, brings together a wealth of knowledge and experience. They are dedicated to helping businesses navigate the complexities of starting up and helping existing businesses gain real insight into what they are doing right or wrong. They are often asked to provide extra resource for those one-off projects that need flair when their clients just don't have internal resource to manage.

“Every business is unique. That's why we tailor our services to meet the specific needs of each client, based on our core offers. We provide personalized solutions that drive success. We have a commitment to excellence, and we believe our international perspective sets us apart in the industry of advice and consultancy. We only work with companies that have a strong ethical code and are committed to doing business in a responsible and sustainable way.”

When further questioned about their approach and *raison d'être*, their answer was both direct and refreshing. It demonstrates how straight to the point they are.

“If we can't demonstrate that our services, save our clients, more than it costs them. Then we aren't doing a very good job are we?”

They are excited to bring their expertise to businesses worldwide and look forward to contributing to their clients' continued success.
