

AFTERCARE

CLEAN TOWELS & BED LINENS
WHILE HEALING.

1. Begin by cleansing your tattoo with warm water and antibacterial soap. Do not use a washcloth.

2. Pat dry with a clean paper towel or allow to air dry for a few minutes.

3. Apply a VERY THIN LAYER of Aquaphor to your tattoo.

THIS MUCH
AQUAPHOR
WILL COVER
A 5x7" TATTOO

WHILE HEALING, AVOID EXPOSURE TO
+direct sun
+pools/hot tubs
+rivers/lakes/oceans
+communal wet areas like steam rooms, gym showers and gym equipment
+essential oils/fragrances
+scrubbing, scratching or picking your tattoo

Once your tattoo is healed, wear sunscreen to ensure lasting quality and less fading of your tattoo overtime.

Signs of Infection
+ Swelling and redness (inflammation)
+ Severe burning or throbbing
+ Increased tenderness that is painful to touch
+ Yellow/green discharge with an offensive smell

If you observe these signs, contact your doctor immediately.

If you have any questions contact your artist directly.
