# about.

The Junior Saloon Car Championship provides motorsport for young adults between 14 and 17 years with exciting, close racing at a low cost.

The 2025 season proved to be very competitive yet again, with performance very close between a number of the competitors. The racing has continued to be fairly contested, although some mistakes are made as these younger drivers find their feet.

The championship has taken on board the Motorsport UK Race With Respect campaign. As we head into 2026, we enter into our 12th year at JSCC racing on the prestigious BARC package yet again.

CAR CHAMPIONSHIP

## HOW DO I START?

The first thing we would suggest you do is complete a F-1 Development day at Blyton with us to see if you like it and are ready for it.

Then you will need to arrange to obtain your ARDS Licence.

You will need to get a Starter Pack from Motorsport UK.

Then choose where you want to take your ARDS test - we'd recommend Anglesey, Croft or Thruxton.

Once this is done you are ready to go racing!

## SCHOLARSHIP

We run a scholarship every year. This is a day held at Pembrey Circuit in Wales, where all entrants go up against each other in different sessions during the a day including

Media | Fitness | Teamwork | Autotest | Driving

They are pointed through the day and the child with the most points is the winner.

## COACHING

You must use an A & S grade instructor - we would recommend you use one with the MUK Coaching badge but this isn't essential.

## AGE & PRICE

You can race in the JSCC from the age of 14.

Your ARDS can be taken when you are 13 ½ and you can do testing on some circuits with an A or S Grade Instructor.

The cost of a season is around £40k.

## THINGS TO BUY

You will need a full FIA kit to go Junior Racing. This includes:

Helmet

Race Overalls

Fireproof Underwear

Racing Boots

Racing Gloves

There are many places available to buy your race kit. We'd recommend Demon Tweaks or Grand Prix Racewear.

## HOMEWORK

We recommend that you have a SIM so you can practice at home.

We have a connection with Perfect Acceleration who provide fantastic Rig set ups.
