There will be 10 separate interior search areas/rooms with one to two hides per room or a clear room. You will have 2 minutes per room. Five rooms will be done back to back in one area first and later five rooms will be done back to back in another area. If you find the hide and call "alert" or call it "clear" correctly, you will earn yourself a playing card. At the end of the event the teams with the best poker hands using the cards won from the correct "alert" calls will win donated prizes. There will also be an optional \$2.00 play to pay "Bonus" card search area.

Limit of 24 teams. A handler may run a second dog but the hides will not be reset. Assigned times will be set every 10 minutes for the start of a new team.

Parking will be at the South and East sides of the building. Dog potty areas will be limited. This event **does not have** indoor crating available. Dogs must remain **SECURE** in your car or crated beside your car while not searching.
