

Summit Search

Are you up for the challenge?

Looking for a new challenge? Need some practice for Elite Interior searches?

These searches will be modelled after the Summit League in NACSW (National Association of Canine Scent Work).

Each search area may contain Wintergreen, Pine and/or Thyme or multiples of the same odor.

Searches may have unknown or known number of hides/distractors for the area. This will be information given to the handler prior to starting the search. For unknown number, you may be given a range - for example: 0 to 4 hides. If no range is given and it is an unknown number, then there may be any number of hides (or zero hides) in the area.

Each search area will be clearly defined, and a time limit will be given for each search. Prizes TBD for top dog(s) scores dependant on entries.
