There will be 3 searches that will be run back to back. Container, interior and exterior. You will have 2 minutes for Containers and 3 minute each for Interiors and Exteriors. There will be 2-3 hides per search area. As you and your dog are searching for the hides you will need to keep an eye out for the hidden “pumpkins” in the search areas. You will need to call out the pumpkin locations as you go along as well as having your dogs find the hides. ( The dogs finding all the hides is irrelevant in the overall winning of the prize money)

The person who finds the most “pumpkins” (pictured above) along the way will win a cash prize of \$50.00. If there is a tie the names will be put into a draw for the \$50.00. There will be no ribbons or placement awards.

Limit of 24 teams. A handler may run a second dog but the hides will not be reset. Assigned times will be set every 10 minutes for the start of the next dog.

Parking: you will be directed where to park upon arrival. Dogs must remain **SECURE** in your car or crated beside your car while not searching.
