New Business

1. Review/Discuss/Consider - Due to a recent complaint to the PSC by one of our customers, it was brought to the City Clerk's attention that the Town may not be charging appropriately for sewage. Whereby, if the sewage connectivity runs through property that has a septic system, the Town can charge the customer for sewage although they are not connected. This is providing there are no gravity and flow issues, and the property is habitable. Council needs to consider this, but this would be a huge undertaking to determine which properties this applies to and could alienate the Town's citizens.
2. Review/Discuss Consider – Zirkle v. Town of Lumberport, Dismissed on 3/3/25 – She is once again residing on Pooz Street. Council approved on 10/21/24 to remove cinder blocks from in front of alley (blocks to date have not been moved). Attorney Simmerman made recommendations on 10/17/22 but the Town did not move forward with recommendations.
