

5K Pressure Sealer

The Infinity Solutions 5K Pressure Seal System is an integrated folder/sealer with a processing throughput of up to 8,000 forms per hour. By leveraging patented pressure seal technology for a tighter seal to protect the integrity of your document processing and Sound Deafening Covers as a standard option provides for a quieter operating unit.

We have designed the 5K with a bottom feed system; a convenient and easy to use 6-digit, resettable, batch-capable counter; six standard fold patterns that can process forms up to 14" in length; and an integrated conveyer output system helps move your forms in a seamless paper stream, while maintaining the processing order.

The Infinity Solutions 5K is completely manufactured in the United States, and its durability is unmatched in the industry.

Performance under pressure - often copied never duplicated.

5K

- Quiet and low maintenance
- Sound covers and whisper drive systems
- Simple operator controls
- Handles all popular fold styles: V, Z, C, and EZ pre-marked for easy set-up
- Folds up to 8,000 documents an hour with variable speed and jog forward/reverse
- Completely seals across documents, No "Pressure Zones"
- 1 year on all parts
- National on-site service options available
- Manufactured in the USA
