One Look. Three Budgets.

When you find the look you love, we help create it at any price point. This modern design balances luxury, style, and budget.

\$ Quality Essentials

Get the best of both worlds with matte porcelain tile and natural slate. Complete the look with a value vanity and simplistic globe sconces.

ENHANCED REALISM

Cutting-edge glazing and printing innovation creates the natural look and feel of organic luxury without the lofty price tag. Made in Italy, the stone-like craftsmanship is a work of art, but care and maintenance is easy.

\$\$ Beyond Basics

Made in Italy, Napoli Sand Porcelain Tile looks and feels like real stone, a perfect complement to this metallic geometric backsplash. A walnut and Carrara top vanity elevate the look, and Edison light fixtures add a twist.

TIMELESS TRAVERTINE

Travertine is having its renaissance. The warm undertones and distinctive texture enrich any space. Every piece is uniquely divine, naturally.

\$\$\$ Limitless Luxury

Natural stone flooring and accent wall tile make a pristine pair with rich texture and authentic beauty. The deep walnut vanity and durable quartz top complete this look, flanked by top-of-the-line modern sconces.

Low Prices. High-End Looks.

Shop confidently with our designer-approved materials that won't break the bank. Our quality essentials and beyond-basic selection are made to stand the test of time with fine craftsmanship without the lofty price tag.

Tile

High-quality porcelain and ceramic styles make luxury a reality for less. Top picks like fluted designs and rounded shapes won't cross the line when it comes to cost.

The image displays a variety of flooring material samples arranged on a light gray background. On the left, there are vertical strips of wood and wood-look laminate. In the center, a large rectangular sample of light-colored stone with a veined pattern is shown. To the right of this stone sample, there are several smaller, decorative stone tiles: four large circles, four small squares, a row of five scallop-shaped tiles, and a grid of 20 small squares. At the bottom left, there are two horizontal strips of stone, one light and one darker. The overall composition is clean and modern, highlighting the textures and colors of the different materials.

Hardwood, Laminate, and Vinyl

The warmth of wood naturally balances a room. These wood and wood-look planks are built to last without leaving a lasting impression on your budget.

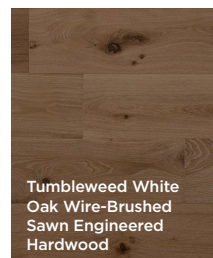

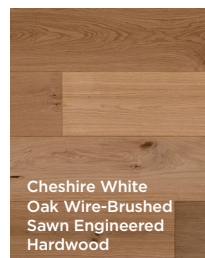

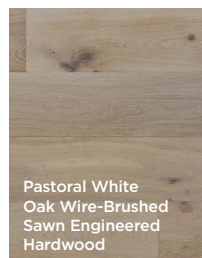

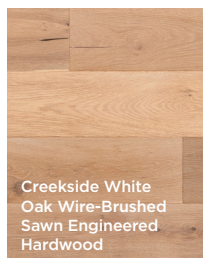

Stone

Real marble comes at an unbelievably low price, with striking honed and tumbled styles. Our quality stone comes straight from the source, so you can cut costs without cutting out the Carrara.

Style & Strength

ENGINEERED HARDWOOD

Make hardwood part of your household story. Its beauty and durability create a timeless foundation for your home for decades to come.

**FEATURES &
BENEFITS:**

Engineered
hardwood does
more than meets
the eye.

Real People, Real Projects®

JARED HUGHES DESIGN'S BESPOKE BATHROOMS

Nestled along the tree-lined streets of Atlanta, Jared Hughes of Jared Hughes Design put his stamp on his personal residence. Within his brownstone, Hughes brought English charm to life with natural limestone, sage marble, and clever installation patterns. Floor & Decor helped create a timeless foundation for this bold interior.
