## CEMETERY PROJECT

Over the past several years, various Genealogical and Historical Societies have undertaken recording of cemetery readings in North Dakota. This work has been quite disjointed. Some counties having none of their cemeteries read and others duplicated by multiple readings. The NDSGS commends George Baron of the James River Genealogical Society for his survey of North Dakota Cemetery readings and report which was shared at the last NDSGS meeting. If your group has not responded to his survey, please take the time to help him with this worth while project. Thanks George!
