ELEGANT DESIGN

Direct & indirect Lighting present different
appearances, whether it is high luminous
efficiency or low glare needs can be met.

**High Luminous
Efficiency Version**

**LOW UGR
Version**

Perfect Combination of Aethelitics & Technology

TO THE URBAN SPACE

Baldr follows the trend of urban differentiation with smooth curvature, creates a tidy impression, and provides excellent heat dissipation. Clear and full rounded PC cover helps to eliminate blind spots caused by lamp arms, bring safety and attractiveness to the urban space. Its rich and various control options bring the latest in intelligence

BUILT-IN MOTION SENSOR

The Built-in Motion Sensor does not compromise its elegant appearance, save energy bills by adjusting the lumen output when movement detected.

High Luminous Efficiency Version

Lights spread out directly from the top of luminaire, through the transparent PC cover without blocking, make full use of the light output, system efficacy up to **140LM/W**.

ANTI-GLARE optic is coming soon

LOW UGR Version

The light source, LED, is placed at the bottom of the luminaire, and the indirect light, reflected by the curved reflector on the roof, is soft and visual comfort.

CCT ADJUSTABLE

Light up different urban spaces

Built-in DIP Switch

Built-in parts, does not affect the appearance

How is it possible ?

With PCBA's using two types of LEDs (e.g. 3000K and 5000K), you can select one of the two color temperatures or mix both to create 4000K. As lenses cover the complete PCBA, the light distribution remains unchanged whatever you select.

3000 K 4000 K 5000 K

| 3000K

Private garden

| 4000K

City Park

| 5000K

Streetscape

LUMEN ADJUSTABLE

Power on different heights

With Built-in DIP switch, you can adjustable lumen output from 100% to 75% / 50% / 30%. to adapt different heights of pole, maximize project flexible but reduce SKU as less as possible

MORE INTELLIGENT CONTROLS

Offers a tailored energy efficient output

ON/OFF Photocell, available in 3-PIN, 5-PIN, 7-PIN connectivity solutions

ZHAGA D4i socket, universal interface for flexible intelligent solutions

Description

ST52 LED post top brings architectural style to area and site and pedestrian scale applications, the design brings a desired organic look into the urban environment. professional optic provide an excellent effect, managing glare while providing high levels of visibility.

Key Features

- LED post top light/garden light
- Contemporary, architectural design, elegant appearance.
- Black (RAL9017)
- 100-240V 50/60Hz
- Professional optic provide an excellent effect, managing glare while provides high level of visibility.
- IK09, IP66 rated
- Φ60mm post top mount available
- Area, site and pedestrian scale applications

Applications

- Residential area
- Private garden/ parks
- River bank
- Public square
- Walkway / pathway

Description

The aesthetics of the city is inseparable from lighting, Lotus satisfied the trend of urban differentiation with smooth curvature, which effectively prevents the accumulation of dust and leaves, not only creates a neat atmosphere, but also provides excellent heat dissipation. In general, the traditional industrial lighting design is not obvious enough, in contrast, the design of lotus is inspired by the Pine Greeting Guests, and through continuous optimization, the overall display is more modern.

Key Features

- LED Post Top Light / Garden Light
- Contemporary, architectural design, elegant appearance.
- Smooth housing without any screws exposed.
- Lumen Packages ranging from 4800 - 12000lm
- 100-277V 50/60Hz, 277-480V Available
- Professional optic provide an excellent effect, managing glare while providing high Levels of visibility.
- IK08, IP65 Rated
- $\phi 60\text{mm}$ & $\phi 76\text{mm}$ mount available
- Area, site and pedestrian scale applications

Applications

- courtyard
- Private and Public garden
- community

PS05 Aura

Decorative LED post top light
with a large shade for visual comfort.

Up to 110lm/W

IP66

IK08

0-10V

Beauty with classic design and clean lines

Elegant design with Ø160mm transparent and slim cylindrical form light post, together with a large shade of Ø550mm on top to achieve the best aesthetics.

Ø550mm

Ø160mm

Flexible mounting

60 or 76mm spigots are optional for pole mounting, and easily exchangeable only by loosening three screws.

Indirect lighting for visual comfort

Indirect lighting and a curved slope design of the lampshade allow luminaires to be installed on 3-6 meter poles, but humans will not see the brightest point in the middle, which creates a human-friendly and soft lighting performance.

Specifications- PS05 Aura Post Top Light

Description

PT03 is a classic LED post top light for illuminating yards, parks, parking areas and other public outdoor spaces. It is well shielded and delivers clear white light, creating a pleasant ambience at the same time as enabling good energy savings. Symmetrical light distribution is designed for area lighting. It is made of high-quality durable materials, and can be directly mounted on a Ø 60 mm & Ø 76 mm post. PT03 makes light dark sky friendly.

Key Features

- A classic design, clean lines and robust materials
- Dark sky friendly
- The luminaire has a symmetrical light distribution and a very comfortable visual effect
- Full wattage 20W, 30W, 40W
- IP66&IK08
- Pole mounting (Ø60mm & Ø76mm optional)

Applications

- Courtyard
- Private and public garden
- Community
- Causeway

Description

The ST40 series post top light is the crowning feature of any outdoor landscape or streetscape. When added to a park or walkway, post-top light illuminates landscape elements as well as improves safety by providing a uniform ambient light that increases visibility for pedestrians.

Key Features

- Contemporary, architectural design.
- Support the most popular mounting type such as single strut, twin strut, post top, side entry, etc.
- High output efficiency up to 150lm/w
- More than 10 kinds of optic lens for optional.
- The housing is made of 100% aluminum alloy
- Akzo outdoor powder for stronger anti-corrosion.
- Tool-less maintenance.
- Compatible with NEMA socket, Zhaga.

Applications

- Roadway
- Parks
- Public square
- Private garden
- Residential area
- Walkway, pathway

CE CB RoHS

Description

PT01 is a lighter weight compact post top light, three wattages well satisfy different applications. The special optics design contributes to comfortable visual experience.

Key Features

- Three wattages, 30W, 40W, 60W.
- System efficiency up to 120lm/w, lumen package 3600lm-7200lm.
- Photocell optional.
- IP66 & IK08 double protection.
- Low UGR, visual comfortable.

Applications

- Village streets
- Urban road
- Country yard
- Parking lot
- Walk path
- Park

Global Climate Crisis

No continent is left untouched, with heatwaves, droughts, typhoons, and hurricanes causing mass destruction around the world. 90 per cent of disasters are now classed as weather- and climate-related, costing the world economy 520 billion USD each year, while 26 million people are pushed into poverty as a result.

Carbon Neutrality Target

More than a hundred countries have joined an alliance aiming for net zero emissions by 2050.

We have to do something

ST49 100% Green Engery

- 0 Carborn emission
- 0 Trench
- 0 Grid
- 0 Electrical consumption
- 100% Autonomous Solution

Humanistic Care to Urban space

ST49 blends solar with post top style brings green energy and urban space

Ingenious optic microstructural design, LEDs hided to reduce uncomfortable caused by emitting directly to eyes, replaced by visual comfort from diffused lighting distribution

High Efficiency

- Monocrystalline Solar Panel
- High conversion efficiency
- 3%-5% > polycrystalline solar panel

8Hour

- LiFePO4 Battery
- Charging fast and stable performance
- 8 hours working time under full power

Save Cost

- Easy Installation
- Easy Maintenance
- Save labor cost
- G.W 8kg, single person can operate easily

Datasheet

SPECIFICATION	1300lm	2600lm	3900lm
MODEL	SP09-010	SP09-020	SP09-030
WATTAGE	10w	20w	30w
COLOR TEMP	4000K (3000K, 5000K optional)		
EFFICIENCY	130 LM/W		
OPTIC	R00C50		
LED CHIP	SMD 2835 LED chips		
BATTERY	LiFePO4 - 76.8Wh	LiFePO4 - 153.6Wh	LiFePO4 - 230.4Wh
CONTROLLER	MPPT		
SOLAR PANEL TYPE	Monocrystalline		
CHARGING TIME	>3 hrs	>6 hrs	>9 hrs
AUTONOMY	Full power>8 hours, Intelligent mode 3-4 days		
IP RATING	IP65		
OPERATION MODE	Remote control with one-key setting		
CONTROL	Timer dimming/PIR sensor		
INSTALLATION HEIGHT	3-7m, Post Top, compatible with 60mm pole		
OPERATING TEMPERATURE	0°C~50°C		

Integrated Smart Control PIR motion sensor

Factory default: 5 Stage night mode:

Time 1 and Time 2: Light keeps 100% brightness for 0.5 hours

During Time 3 (1st 4 hours):

If motion detected by PIR sensor, luminaire dims up to **50%**, then down to **10%** after 30s' hold time when nothing detected.

During Time 4 (2nd 4 hours):

If motion detected by PIR sensor, luminaire dims up to **20%**, then down to **10%** after 30s' hold time when nothing detected.

During Time 5:

lighting fixture keep 10% brightness for 3 hours until **sunrise**.

Working with sensor, available to working at 3-4 Cloudy or Rainy days

Application

Anywhere with sufficient sun light
No electrical grid to be invested

Park

Square

Garden

Pathway etc

CE RoHS

Description

ST49 is a lighter weight integrated solar post top light, three wattages well satisfy different applications. The special optics design contributes to comfortable visual experience. The built-in PIR sensor support intelligent dimming control, and offer longer discharge time.

Key Features

- Three wattages, 10W, 20W, 30W.
- System efficiency up to 130lm/w, lumen package 1300lm-3900lm.
- Smart control with built-in PIR sensor and timer dimming.
- Higher conversion Mono-crystalline photovoltaic solar panel.
- Easy maintenance with removable battery.
- Low UGR, visual comfortable.

Applications

- Village streets
- Urban road
- Country yard
- Parking lot
- Walk path
- Park

Post top

Intelligent Control Mode

5 Stage Night Mode

* Please note the sensor function is only available at Time 3 and Time 4

* You can set the fixtures with 5 stages timer dimming yourself by the remote control.

PIR Sensor Detect Areas

Infrared sensor
 θ (Angle): 60°
 H(Height): 7m
 D(Width): 8m

Microwave sensor
 θ (Angle): 150°
 H(Height): 15m
 D(Width): 7m

Factory Default Setting:

With sufficient natural light, the light keeps charging

1st 4 hours from light switches on, the light keeps 100% brightness when presence is detected

The light keeps 30% when there is no presence is detected after 30S hold time in the 1st 4 hours

The light keeps 60% brightness when there is presence is detected from 5th to 8th hours after light switches on

After 30S hold time within 5th to 8 hours, the light dim to 20% brightness when there is no presence is detected

The light keeps 10% brightness for 3 hours until the Sunrise.

The controller recognizes day and night based on the Solar Array Open Circuit Voltage, this day/night threshold can be modified according to local light conditions and the Solar Array Used, setting range 3.0 ~8.0V

Aesthetic Design Concept

TO THE URBAN SPACE

The elegant clean housing with 360°-surround-lighting bollard with Type V distribution makes BL03 an ideal landscape lighting solution that enriches the environment and the pedestrian experience where they are installed.

The smooth surface design makes the bollard easy to clean even in rainy days for saving labor cost and as well as keeping the installation environment clean.

Human-Centric Lighting

In addition to the universal practice of energy saving, it is more and more important to follow the trend of human oriented for lighting application.

The built-in motion (PIR/microwave) sensor does not compromise its elegant appearance, save energy bills by adjusting the lumen output when movement detected.

2 Mounting Options

Enrich your urban light family

• Bollard light

360° Coverage

• Wall light

Single side lighting

with assymetric beam angle.

Specification

	Bollard light		Wall light	
Model No	BD01-013	BD01-025	BD01-013	BD01-025
Power Consumption	13W	25W	13W	25W
Luminous Flux (±5%)	1,690lm	3,250lm	Coming soon	
Efficacy	130LM/W			
Beam angle	Type V (R401)			
CCT/CRI	4000K (3000K, 5000K Optional) /Ra70			
Input Voltage	100-240 VAC/220-240 VAC , 50 / 60 Hz

IK & IP Rating	IK08, IP66			
Control	Dimmable and Non-dimmable, Motion Sensor,			
Product Dimension	Ø133*475mm / 3.8KG, Ø133*975mm / 5.3KG			
Operating Temp.	-30° C ~ +50° C			
Performance	Strong anti-corrosion with AKZO powder, superior dual coat finish, passed >500H salt spray test			

Dimensions

Flexible Packing Methods

Flexible packaging methods to meet customer needs.

For Project: Fully-assembled

For Inventory: Head and pole packed separately

Description

BL03 is an excellent urban luminaire for new construction or retrofit application. The high output LED and 14W-25W makes the power as a whole series. Smart control of built-in motion sensor makes it more energy-efficient. As bollard light, available in 0.5M and 1M height. As wall light, asymmetric beam angle can full use of lighting without wast.

Key Features

- Two ways installation as bollard and wall light.
- High output lumen efficiency, up to 130lm/W
- The housing is made of 100% aluminum alloy (ADC12/AL6063)
- Outdoor powder coating for anti-corrosion.
- Easy to maintain.
- Wall mount is optional
- Robust design with IK10 protection
- Micky diffuser is available for soft lighting

Applications

- Gardens
- Pathways
- Sidewalk
- Building Entrance

Description

BL02, a slim and creative bollard, catching our eyes with its unique aesthetic design, helps lighting up your project space. Intelligent control like PIR sensor saves energy bills. IP66 and IK10 rated, also with its UV resistant polycarbonate optical lens, ideals for various outdoor applications.

Key Features

- 15W/25W, system efficacy up to 105lm/W
- IP66 and IK10
- PIR sensor and DALI available
- Professional Type IV / Type V lighting distribution
- 0.5 and 1.0 m height optional

Applications

- Gardens
- Pathways
- Sidewalk
- Building entrance

Description

BL04 is an innovative LED solar bollard light which got enhanced in both aesthetic and creative. IP66 ,Mono-crystalline solar panel, UV resistant PC material, with architectural design is quite popular in pathway areas, gardens, sidewalks, building entrance and etc.

Key Features

- IP66 and IK07
- Unique and gorgeous appearance
- Professional Type IV / Type V lighting distribution
- High efficiency Mono-crystalline solar panel
- Long lifespan LiFePO4 battery, 8-hour charging, working 2-3 days.

Optic Information

LED Type	LED 2835
Luminous Flux (±10%)	340lm(R03201)/ 320lm(R03202)/ 420lm(R03203)

Luminaire Net Weight (±0.3kg/±0.66Lbs)	0.5m: 5.1kg (11.24Lbs)
	0.9m: 6.6kg(14.55Lbs)
Export Carton Size (All-in-one package)	Full-assembled 0.5m: 690×300×305mm (27.17"×11.81"×12")
	Full-assembled 0.9m: 1090×300×305mm (42.91"×11.81"×12")
Gross Weight (All-in-one package) (±0.3kg/±0.66Lbs)	Full-assembled 0.5m: 6.43kg (14.18Lbs)
	Full-assembled 0.9m: 8.3kg (18.3Lbs)
Export Carton Size (Separated package)	Heading: 280×280×275mm (11.02"×11.02"×10.83")
	Bollard 0.5m: 505×210×215mm (19.88"×8.27"×8.46")
	Bollard 0.9m: 915×210×215mm (36.02"×8.27"×8.46")
Gross Weight (Separated package) (±0.3kg/±0.66Lbs)	Heading: 3.46kg (7.63Lbs)
	Bollard 0.5m: 2.94kg (6.48Lbs)
	Bollard 0.9m: 4.9kg (10.8Lbs)
Mounting Option	Mounting kit with anchor bolts
Material	Aluminum alloy
	Polycarbonate optical lens
	LiFePO4 battery
	Mono-Crystalline solar panel
Finish	Powder coating
Fixture Color	Black (RAL 9017)
EPA	NA
IK Rating	IK07
IP Rating	IP66
Category of corrosion	C4-M

Applications

- Gardens
- Pathways
- Sidewalk
- Building entrance

Lifespan and Warranty

Operating Temperature		0°C to + 50°C(32°F to 122°F)
Life Time of LED @Ta=25°C		80,000hrs-L90
		169,000hrs-L80
		271,000hrs-L70
Warranty	Battery	3 Years
	Other accessories	5 Years

01

WHY WE DESIGN BDS34?

Carbon neutrality

What does it mean to be carbon neutral?

Companies, processes and products become carbon neutral when they calculate their carbon emissions and compensate for what they have produced via carbon offsetting projects..... Therefore, emissions that cannot be avoided locally can be offset by carbon offset projects in another location.

Why do we need it?

In 2018, the Intergovernmental Panel on Climate Change released a report concluding that to limit global warming to the 1.5 degrees Celsius set by the Paris Agreement, the world needs to stop emitting carbon dioxide, and other greenhouse gases, by 2050.

How We Do?

We actively participate in and contributes to the carbon neutral' army.

LEDs are pretty amazing, which can reduce carbon emissions if comparing with traditional lights. But we also find cheap and reliable solar engery is also very importance to environmental protection.

Then we design a lot of led solar lights, such as BDS34

02

PRODUCT INTRODUCTION

Structure

OFF GRID solar powered connectivity, no power outages, no monthly electric bills.

I.

Bollard head with solar panel.

II.

Specialized and customized optical lens: Symmetric & Asymmetric.

III.

Super Smooth design, no screws exposed. Available in two sizes: 500mm or 900mm height options.

IV.

Anchorage unit

Appearance

Wherever there's a grassland, It deserves a BDS34 bollard

BL04 Bollard Light presents a contemporary, architectural dayform providing superior uniform illumination designed to enhance urban spaces with beautiful visual appearance.

Working mode

Five-stage Night Mode

Lighting scheme	Time 1	Time 2	Time 3	Time 4	Time 5	Energy consumption	Working hours in rainy days
1 (Factory default)	6H× 100%	0H× 100%	0H× 100%	TOT× 0%	1H× 30%	7.4Wh	4-5 Days
Set the modes Time 1-5 and lighting levels by remote control. Battery capacity:38.4Wh, solar panel wattage : 5W. Battery charging capacity:24Wh /Day. Recommended battery energy consumption ≤20Wh /Day.							

*** Avoid being shaded by trees and buildings, or battery charging will be affected.**

Professional optical design

Type IV & V Optic Lens

Type IV & V light distributions will be suitable for different areas.

Specification Shipping

Model No	BDS34	
Power	3W	
Efficacy	105lm/W(R03201) /100lm/W(R03202)/ 130lm/W(R03203)	
CCT&CRI	4000K (3000K, 5000K optional)/Ra80 (Ra70 optional)	
Beam angle	R03201(Type V)/R03202(Type IV)/R03203(Type V)	
IP&IK rating	IP66/IK07	
Chips	LED 2835	
Battery	LiFePO4 battery	
Operating temperature	0°C to +50°C(32° F to 122° F)	
Certificate	CE/CB	
Dimension	Φ230 × 520mm(Φ9.06" × 20.47")	Φ230 × 920mm(Φ9.06" × 36.22")
Net weight	5.1 ± 0.3kg(11.24 ± 0.66Lbs)	6.6 ± 0.3kg(14.55 ± 0.66Lbs)

Installation

BL04 comes with standard steel anchor bolt kit. Available with a durable internal base plate for use in urban areas or for a clean look in installations. Please refer to Product Installation Instruction for detailed steps.

Application

Park, Garden

Industrial Park

Amusement Park

Pedestrian Street

Residential Quarter

Urban Light Family

Our principle is multifunction, differentiation and customization.
