REQUIRES DEDICATED 120V 20AMP CIRCUIT

## ACOUSTIC TREATMENT & COMFORT

2' x 4' acoustic foam sheets to reduce standing waves and flutter echoes.

Bass Traps that control low-frequency sound for smoother, more balanced acoustics in your room for improved booth sound quality.

LED puck lights and colorful multicolored LEDs set the perfect mood with customizable therapy lighting. Adjustable, silent, and heat-free, include a remote.

Enjoy quiet air circulation with a 10-speed fan, noise-reducing baffles, and vibration-free ducts.

Double-pane, 1/4" laminated safety glass reduces noise, prevent sound transfer, & resist shattering offering clear visibility into the booth.

Individual Premium Zero Gravity Vibroacoustic Reclining Chair for comfort and an enhanced sensory experience utilizing low frequency transducers.
