

How to charge your EV

Step 1: Download the Everty App

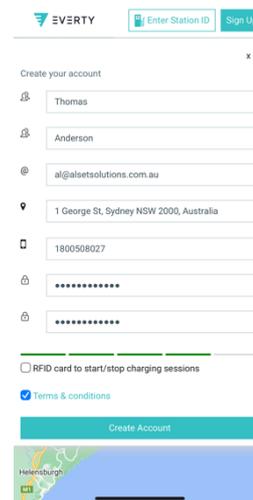

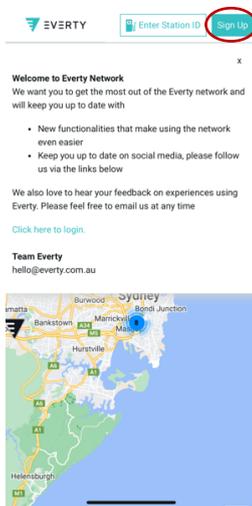

- Visit your device's app store (Google Play Store for Android or Apple App Store for iOS).
- Search for the Everty App and click "Download."
- Once the app is installed, open it.

1 Download the Everty app.

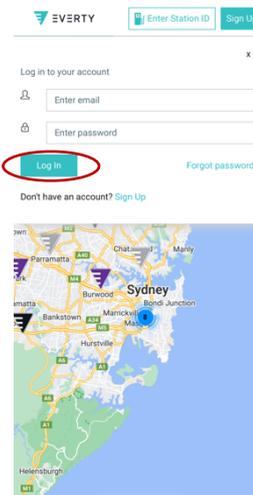

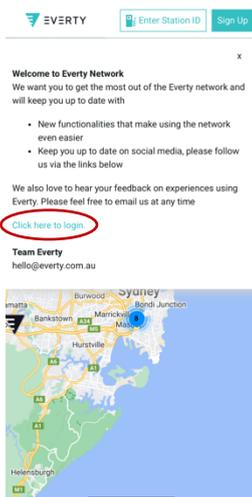

Step 2: Create an Account

- If you're new to Everty, tap "Sign Up" to create an account.
- Provide the required information, including your email address and a secure password.
- You can select RFID option if you don't have cell phone signal near the charger.

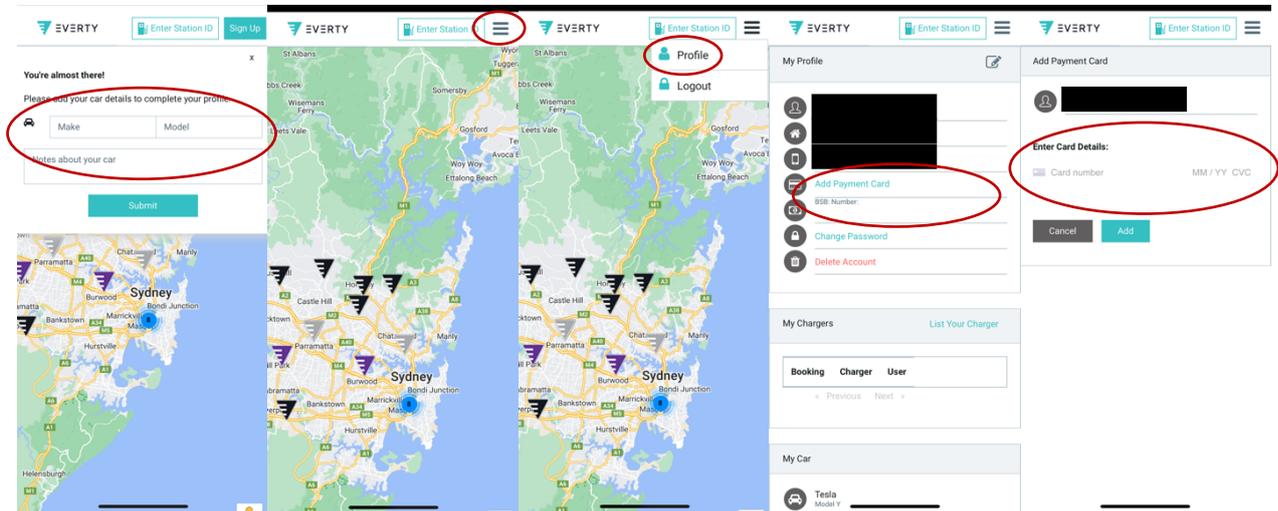

Step 3: Log In

- Use Everty App and log in using your email and password.

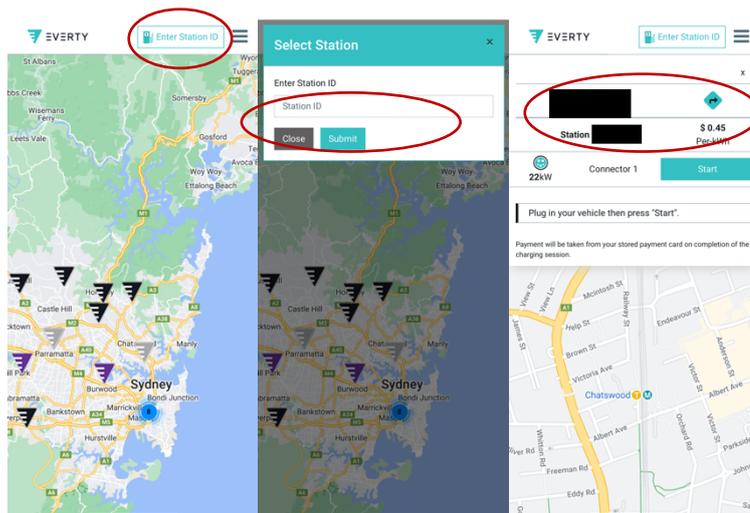

Step 4: Adding details

- Add your car details (optional).
- Add your payment details (credit card info)

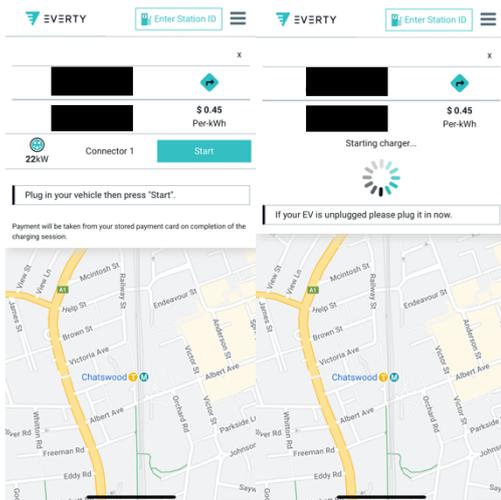

Step 5: Find a Charging Station ID

- Due to the chargers being set for private use, you won't be able to find it using the map.
- The Charging Station ID is a four-digit number (i.e. 1357) that can be found on the charger you want to use.
- Enter Charging Station ID and click 'Submit'.
- Review station details, including location, availability, and charging rates.

Step 6: Start Your Charging Session

- Open your EV's charging port and plug in the charger
- Click the 'Start' button in the APP

Step 7: Monitor Your Session

- The app will display real-time information about your charging session, including charging speed and progress.

Step 8: End the Charging Session

- It's important to unplug your vehicle and move it once charging is finished as others might need to use it urgently.
- When your EV is fully charged or when you're ready to finish charging, unlock the charging port and unplug the charger.

Step 9: Payment & Invoice

- The app will automatically process the payment upon completing your charging session.
- An invoice will be sent to your registered email address for your records.

Step 10: Assistant

- In case you need any assistance, please feel free to contact 1800 508 027 or email al@alsetsolutions.com.au
