

MagnaDATA

an M.U.C.H. company

The Data Authority

The MagnaDATA team has been refining their skills for a decade now, and only continues to grow more knowledgeable in the field of technology. We have all heard the old saying “work smarter, not harder”. Since the MagnaDATA Division of MUC embodies this principle, it is entirely appropriate that their motto was deemed, “Smart Technology First”, as a reminder of their mission; to streamline processes, mitigate cost, and simply the lives of not only our valued clients, but the entire MUC family.

PROCESS AUTOMATION

We take those highly repetitive menial tasks and automate them, so we can save our clients considerably in both time and cost.

DATA SCRAPING

Our processes for scraping data are precise and fluid.

DATABASE

ARCHITECTURE

In need of a database build? We are the professionals and can let you know exactly what is required.

DATABASE

MAINTENANCE

As with most equipment maintenance is essential, and databases are no different. We can help make sure your bases are covered.

CUSTOM SOFTWARE

IMPORTATION

We find that our employees are most productive when effectively communicating. The same goes for software. When your applications can effectively interface, you get more done.

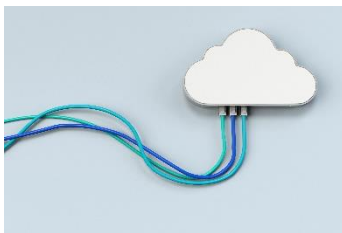

Advanced

We take advantage of market-disruptive technology to ensure our services surpass the industry standard and set the bar for our competitors.

Thorough

We put your pain-point(s) under a metaphorical microscope, considering all avenues and factors when developing each custom solution.

Secure

Our team of experts utilize the security of a Virtual Private Network (VPN). This way, our clients can have the utmost confidence that their information is in the right hands and only those hands.

International

We deal with data and people from many parts of the world, all with complexly different issues. If there is a solve, we'll find your company the most economically sensible fix.

MagnaDATA

an M.U.C.H. company

Features and Benefits

Much like a fingerprint, our solutions are unique to each client. They cater to specific needs and as such, are highly customized. These services come with a wide variety of benefits all geared towards simplicity and cost-effectiveness. MagnaDATA is always exploring the latest in technology in order to provide our clients with the cutting-edge approach to their issue, that they are looking for.
