

Dear Benefactors,

Christmas is the most popular celebration in the world which invites to love, to share and to converse ourselves. It helps us to better understanding of people who are in need. This leads us to have more attentions to the others, either to give good advices, to make peace, or to reconcile with our enemies, and to say that we love you.

Obviously, Jesus shows us that he is a shepherd of peace and joy; Then He comes to make us one body as He is one body with God, the Father.

At the Saint-Jean Bosco Training Center, we cannot stay without talking to you and say "LOVE"!

It is really a joy for us to wish you Merry Christmas 2016. In this period of time, if we have the chance to celebrate Charismas, it is thanks to the family of Nazareth that Jesus, Mary and Joseph. This joy lives in our hearts, although physically we are not enough comfortable to feast but our morale remains high because when we focus have Nazareth family which suffered so much but they shared their faith to help us also to hope every day.

This year our letter arrives late, however God knows why. Usually people say: "better late than never", with all our due respect, please forgive us this delay.

All blessings come from our God, Architect of universe. Because he is always by your side, he always accompanies you in good times and in bad. May He bring to you all New Year long:

PEACE, JOY, HAPPINESS, PROSPERITY, HEALTH, LONGEVITY.

All the children of our Training Center Saint John Bosco embrace you and wish you : Happy New Year 2017, with Jesus, who loves you and loves us so much.

We say a big thank you for everything. Thanks to your great participation and generosity, we had the chance to celebrate Christmas with our children.

We pray God to send many blessings to you over the Year . Love!

Saint John Bosco Training Center,

Otile Jean
