

Dear Benefactors,

Christmas is a special day; Jesus Lamb of God comes to save humanity. Exactly, He is our Savior. He gives us strength when we are weak and He is our treasure that we seek. Finally He is all in our life.

We love Christmas because it is the feast of peace. It helps us to communicate together, to smile and to share; yes, it is a very important day for Christian people. We have reason to be over the moon to thank God for His grateful Love.

God loves us, He looks our difficulties, He accepts to send us His only Son to be able to protect us every day. We must to praise Him, to adore Him and to glorify His holy name. According us, we have not anyone to compare to our God who comes to console humanity; only Him, only Him did that. Really, He is our Creator and our merciful Father.

Yes, Jesus comes; we have Peace, Joy, strength, courage and consolation. Benefactors, we know, you also you make almost the same work. Inspiring from Jesus love you do like Jesus did. Often you share what you have with our children in Saint Jean Bosco School. God manifests His Joy and He send to you His benediction. We can say through your love the divine love is visible on earth.

With these words our children parents, our school children and all Haiti people are overjoyed to wish you Merry Christmas, health, happy and peaceful New Year 2019.
