

# MIRACLE SURROGACY

WHERE MIRACLES ARE DELIVERED

## MONTHLY REPORT

October 14th 2021

PATIENT:

PREGNANCY TIME:

14 WEEKS 1 DAYS

BABY

HEARTBEAT

168 BPM

ADBOMEN

CM

WEIGHT

GRS

FEMUR

CM

HEAD

CM

NEXT APPOINTMENT:

November 11<sup>th</sup> 2021

SM:

Lots of Nausea and sleepy.

DR. COMMENTS:

The blood pressure is good, the placenta looks good too. Good amniotic liquid. Good hearbeat rate. Continue with vitamins, suspend the progesterone. The structural ultrasound showed no abnormalities so far, and low risk for trisomy's. The body parts of the baby are developing well and all looks normal. We will need to do a follow up on week 22<sup>nd</sup>.
