Quality Manager **Easton Technical Products**

- ▶ “I’ve worked closely with the owner for the past 18 months. Their customer service is top-notch. Whenever I’ve asked for last-minute requests they’ve always delivered. C&A Packaging Services has grown into an extremely valuable partner of mine.”
- ▶ “C&A Packaging took the lead on a large rework project for our target shafting points. An error in the drawing/fabrication process required new tooling and added complexity. The C&A team facilitated new tooling and added additional manpower to the process to manufacture a great amount of points in a short period of time. Although the issue was of no fault of C&A Packaging Services, they took the lead and fixed the problem with high quality and short lead times.”
