GEARBOX REPAIR

Next time you're faced with a Gearbox related issue, turn to SC Machine, where our expertise will help put your project back in gear.

Remanufacturing offers several service options, tear down, inspection, written estimates and fast turnarounds.

It has become clear that the market needs their gear units to be rebuilt quickly and efficiently.

SC MACHINE quickly learned that reverse engineering as well as remanufacturing was the future.

All in order to ensure that they were quality products that beat OEM specs.

We have the knowledge and technology to completely repair and even manufacture complex components in a standard 10-14 day turnaround time.

Other Services

Remanufacturing & Repair,
Preventative Maintenance,
Spare Part Sales, Reverse
Engineering & Manufacturing
Rebuild with Warranty

We offer disassembly, cleaning, inspection, measurement, and engineering evaluation and recommendations.

Including modifications and reverse engineering.

Our expertise covers a wide range of gear reducer repair, right down to reinstallation and inspection.

If you are interested in a complete rebuild, we are ready to answer your call. It doesn't matter if your gearbox has been in service for 5 years or 25 years - we can rebuild it

TESTIMONIALS

We shipped our crashed gearbox to SC MACHINE. They repaired it and charged us much less than manufacture. We are very pleased with their honesty and service.

Mike Edwards
Plant Manager

SC Machine has been repairing our Rotary Airlocks and Amarillo Gearboxes. SC MACHINE has been beating the OEM's price and offering great service and super fast turn around.

David Jackson
Maintenance Supervisor

After months trying and find a good responsible company for our gearbox repairs & maintenance , we finally found SC MACHINE. They evaluate the problem along with a free quote. They have been rebuilding our equipment for years now.

Kristina Sung
Operations Manager
