

BundIAR App Instructions

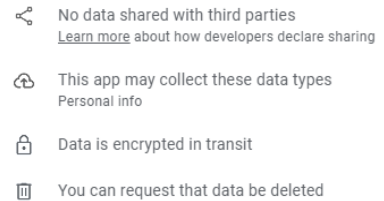

Simply point your camera at the character portion of a card and watch interactive digital content—including video, audio, PDFs, and 3D models—appear out of thin air!

- To view the Augmented Experience, at least one person from your krewe must download the BUNDLAR app on a mobile device.
- The app is compatible with Apple devices iOS 11.0 or higher and devices Android 7.0 or higher.

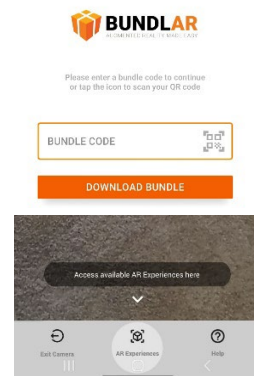

1. Download the app from Google or the Apple App Store.
2. Open the **BundIAR** app.
3. Tap **Allow**. Bundlar needs access to photos, media, and files to function.
4. Tap **Allow**. Bundlar needs access to take pictures and record video to function.

More information about how this app collects, shares, and handles your data.

5. Point your device at the character portion of the card, starting with the Mysterious Stranger card (HINT: You will find the first character card in your Welcome Package). You will receive a character card from each breakout session or the Game Marshall.
6. Tap **OK**.
7. Tap Download Bundle.
8. Tap **AR Experiences** at the bottom of the screen.

10. Tap the Experience you wish to view.
11. Point your device at a flat surface such as the floor.
12. Tap **View in 3D**.

12. Slowly move your device from side to side to scan area.
13. Tap the **recticle** (target circle) to place the 3D object.

Slowly move device from side to side to scan area.

Tap the recticle to place selected object.

14. Reposition or resize the image as needed. You may reload the Experience using the circular arrow.
15. When you are finished, swipe up to return to the menu.
