

It's Bizz Auto Inspection D.I.Y

Pick Lemons off trees, not off car lots!

Introduction

Hello and thank you for choosing It's Bizz Auto Inspection D.I.Y. My name is Keith Bernard Jr., and I am a certified automotive technician, who has been working on vehicles for over 13 years. Along with working on vehicles, it is pertinent that the vehicles are inspected before work begins.

Vehicle inspections are important and necessary! Inspecting or having a vehicle inspected gives extra insight into problems that are usually missed by the basic consumer and vehicle history reports. Understanding and having the basic knowledge of what to look for during a pre-inspection is the key to driving off in a well-used vehicle.

This app not only comes with a checklist, but a video tutorial for every section so you will not be lost. My goal is to give as much knowledge, and information to consumers on how to inspect a vehicle. Though buying the perfect vehicle is not guaranteed, this app will give more insight on what and how to do a pre-purchase inspection on a vehicle.
